Forced supplies high quality 12inch latex balloons in a variety of colors. These balloons are easily printable and are of helium quality. Inflated for a long duration without losing shape or color for all your decoration needs.

PEARL BALLOONS

BALLOON PRINTING

12 INCH. LATEX BALLOONS WITH OPTIONAL STICKS & CUPS

STANDARD BALLOONS

Latex Balloons in various sizes with 1-4 color printing also available on special orders

PAD PRINTING

Pad printing is a printing process that can transfer a 2-D image onto a 3-D object. This is accomplished using an indirect offset with the help of a silicone pad.

SCREEN *Printing*

Our Production is equipped with the latest machineries to help you print from one colour to half tone on fabric panels or readymade garments.

LASER ENGRAVING & METAL MARKING

Laser engraving, which is different from laser marking, is the practice of using laser to engrave an object. Laser marking on the other hand just discolors the surface, without cutting onto the surface. The technique does not involve the use of inks, nor does it involve tool bits which contact the engraving surface and wear out.

ID CARD PRINTING

ANTI-STRESS BALLS

A stress ball is a malleable toy, usually not more than 7cm in diameter. It is squeezed in the hand and manipulated by the fingers, ostensibly to either help relieve stress and muscle tension or to exercise the muscles of the hand.
